

December 2008

Our theme for this month is "Experimenting in a Winter Wonderland". The preschoolers will be doing several science experiments: catching snowflakes on their tongues and learning about solid, liquid and gas through a crystal growing experiment. We will also be talking about the different weather we are experiencing in Gods wonderful world, especially snowflakes. Our community helper this month will be a teacher. Preschoolers will have the opportunity to learn about the many wonderful things a teacher does.

On December 16th we will be having our annual Happy Birthday Party to celebrate Jesus' Birth. The kids will decorate cupcakes and we will gather together in the cafeteria to eat and enjoy. In the evening there will be the annual Christmas Program. Montessori will join K-8th grade.

More information will be posted at a later date.

Hope everyone has a Happy Holiday and we are looking forward to seeing you all next year!
