Dear current St. Patrick School families,

I pray to the Lord our God for you and your family, to give you health, love from your closest ones and abundant blessings.

After a full year of learning about the process of coming back together, Parish and School, we are making very good steps towards better use of our resources, as well as planning and working through the financial struggles that the entire world is going through. We are making some financial changes in our structure to be able to help you better, and to give us a good sense of guidance into our budgeting process as well as keeping a good management of the cash flow, to continue working together, helping you educate your children.

With all of this planning process and with these goals in mind, we are starting our Registration Process for the 2009-2010 School Year. With this letter, you are receiving the Registration Form and tuition rates. Because of the planning we are implementing, our tuition for 2009-2010 School Year will continue the same, and will actually decrease for those families with three or more children. Also, our way of billing will change to a more efficient way through an ACH process.

It is very important you send the Registration Form back before Friday, March 27, as we are opening the enrollment to the community on Monday, March 30, 2009. We are dedicating parish resources and management to increase our number of families enrolled in the school, and the number of spaces available will be less, but the amount of money allocated to financial assistance will remain the same. The sooner you register, the better your chances to be admitted in the school and to receive the financial assistance you need to cover your tuition cost.

At the same time, we are inviting each one of you to meet with Pastor and Principal for a meeting where we will address the Catholic Identity of the School, the Parish Mission in the School, as well as all the financial changes we are mentioning. During that meeting you will finish the signing of all the forms and commitment you will have for the 2009-2010 School Year.

Please return the form below with three available times and dates that you have available over the next two week. We will do our best to accommodate your preference.

May God bless you,

Antonio Vegas, Principal
